

PROFESSIONAL DEVELOPMENT INSTITUTE

Requirements of the Certificate in Knowledge Management for those registered prior to January 2019

With the sharp focus on real-world application that our training is known for, the Certificate in Knowledge Management delivers insight into the current state of the knowledge environment and teaches cutting-edge practices. Four core courses plus one elective establish the framework to develop strategies for harnessing and mobilizing knowledge. The Certificate in Knowledge Management is designed and delivered in conjunction with the Institute for Knowledge Mobilization.

Certificate requirements

Four core courses:

- Translating Research into Policy and Practice—An Introduction
- Translating Research into Policy and Practice—The Next Level
- Results-based Management
- Effective Management of Project Stakeholders

One elective course chosen from the following:

- Analytical Thinking
- Strategic Thinking
- Communicating Technical Information
- Influential PowerPoint Presentations
- Knowledge Management: Monitoring and Evaluation Methods
