CODING FOR VETERANS

Great Tech Careers Waiting for Graduates

WWW.CODINGFORVETERANS.COM

ABOUT

- **Coding for Veterans** is a "tech industry" led initiative to help military veterans transition to jobs in Canada's tech sector

- **Tuition is paid 100%** by VAC through the Education Transition Benefit program or the Manulife SISIP program for those who qualify

- **Employers are lined up** to hire our program graduates into good paying, stable tech jobs

- **Over 182,000 IT Jobs** are waiting to be filled in Canada

PROGRAM

- There are 2 Academic Streams:

  - ✓ Software Engineering/Coding
  - ✓ Cyber Security

- The software program teaches veterans the software languages that employers are looking for and are in demand today.

- The cyber program includes the CISSP accreditation that most cyber security jobs require.

- Both programs are:

  - ✓ In a protected cohort meaning all of your classmates are military veterans like you
  - ✓ Taught by professors and industry mentors
  - ✓ Flexible should you choose to work while enrolled in the program
  - ✓ Delivered 100% online
